JORDAN REYES
Business Analytics Student
Fictional classroom sample

EDUCATION
B.S. Business Analytics, expected May 2027
Coursework: Statistics, Database Fundamentals, Business Communication

CAMPUS DINING ANALYSIS | Course project
Cleaned 480 survey responses in Excel, standardized dining location names, and used pivot tables to compare wait times across four campus locations. Wrote SQL queries using JOIN and GROUP BY to compare lunch-period traffic. Presented three charts and a staffing recommendation to a class of 25.

STUDENT ACTIVITIES OFFICE | Student assistant
Tracked registrations for six campus events and shared weekly Excel summaries with two student coordinators. Checked duplicate registrations before preparing attendance totals.

SKILLS
Excel pivot tables, SQL joins, survey analysis, presentations
